NOTES

See page 6 for icons description.
 See page 26 for more information about applications.
 See page 34 to 36 for more technical information.

In order to obtain a more realistic appearance to natural stone, wet cast (Stonedge collection) slabs are intended to have a slightly larger variance in their dimensions than dry cast slabs. See Notes for dimensional tolerances on page 34.

Please note that for barefoot walking areas (e.g. pool deck) dark-colored paving units could get very hot under the sun.
